

# MUHAMMAD ABDULLAH

AI ENGINEER

## ABOUT ME

---

I'm an aspiring IT specialist with a strong background in computer science and programming. Alongside my technical skills, I've taken on leadership and management roles in different settings. I enjoy working with people as much as coding and I'm always looking for ways to learn and grow.

## PROJECTS

---

- **Space Shooter:** Developed a game using SFML and C++.
- **Facebook Simulator:** Login, messaging, posts and likes.
- **Solitaire:** Implemented using different data structures.
- **Sudoku:** Created in Assembly (COAL).
- **Restaurant Management System:** Designed to gain DBMS skills.
- **AI Chatbot:** PDF-based chatbot for answering questions.

## EDUCATION
